THE CITY OF NORCO ANNOUNCES LAUNCH OF NEW MOBILE APP

The Norco App will be Available for Download on November 30, 2016

NORCO, CA: The City of Norco will launch a new mobile application on Wednesday, November 30, 2016. The Norco App is compatible with iOS and Android devices, including smart phones, iPads and tablets. The Norco App will be available for download in the iTunes App Store and the Google Play Store under the title “City of Norco.”

The interactive and user-friendly official app of the City of Norco, Horsetown USA, is built for Norco residents and visitors alike. Through the Norco App, users will have City resources at their fingertips, as they will be able to report issues they observe in their community, directly contact City departments and elected officials, receive City news and calendar alerts, and connect to City communication platforms. The Norco App also provides users with access to a complete business directory, which will include an array of places to shop, fun things to do, great places to eat, and animal keeping resources. In addition to being a necessity for residents, many features of the Norco App are valuable resources for tourists arriving in Horsetown USA.

Information about the City of Norco’s new mobile application will be posted on the City’s Facebook and Twitter accounts, as well as on the City website, www.norco.ca.us. For more information on the Norco App, please contact the City Manager’s Office at (951) 270-5645 or email norcoapp@ci.norco.ca.us.
