Mandatory “Level 3” water use restrictions are still in effect. Please see the City website (www.norco.ca.us) for additional information.

Storing abandoned, wrecked, dismantled, or inoperative vehicles in Norco is illegal and the City has a program for their removal. Please contact City staff at (951) 270-5661 if you have abandoned vehicles you want to remove or to report abandoned vehicles elsewhere in the City.

We are approaching the height of the mosquito breeding season. Mosquitos can carry the deadly West Nile and Zika viruses. During summer mosquitos can live as long as 3 weeks and the development cycle from egg to adult is only 7 days. The easiest prevention of mosquito breeding is the removal of stagnant water around the home. Please contact Code Enforcement at (951) 270-5688 to report stagnant water. For more information, visit Northwest Mosquito and Vector Control District at www.northwestmvcd.org.

FOR YOUR INFORMATION:
Nominate your own property or someone else’s in the listed categories. Everything visible from the street is taken into consideration. Before and after pictures are needed for the most improved categories. Winners from previous contests are not eligible.
