

ENHANCE NORCO'S URBAN FOREST BY
SIGNING-UP FOR A

FREE TREE!

**Are you interested
in having a free
tree planted in the
parkway in front of
your home?**

In May 2019, the City of Norco was awarded an urban forest expansion and enhancement grant from CAL FIRE. The grant provides funding for technical expertise, new tree plantings and maintenance over a three-year period. The monies distributed by CAL FIRE are provided through Prop 68, a state bond measure passed in 2018 to fund parks, environmental protection projects, water infrastructure projects, and flood protection projects.

Hundreds of new trees are expected to be planted at no cost to homeowners along City rights-of-way in front of homes, in parks, and on school campuses.

To participate in the
City of Norco's Free Tree
Planting Program, visit
